

# GAME ROOM PLANNER

The F.G. Bradley's game room planner is designed to assist you in planning the layout of any game room. It's so easy! Draw the dimensions of the room on the grid and use the template provided to reveal what options you have!

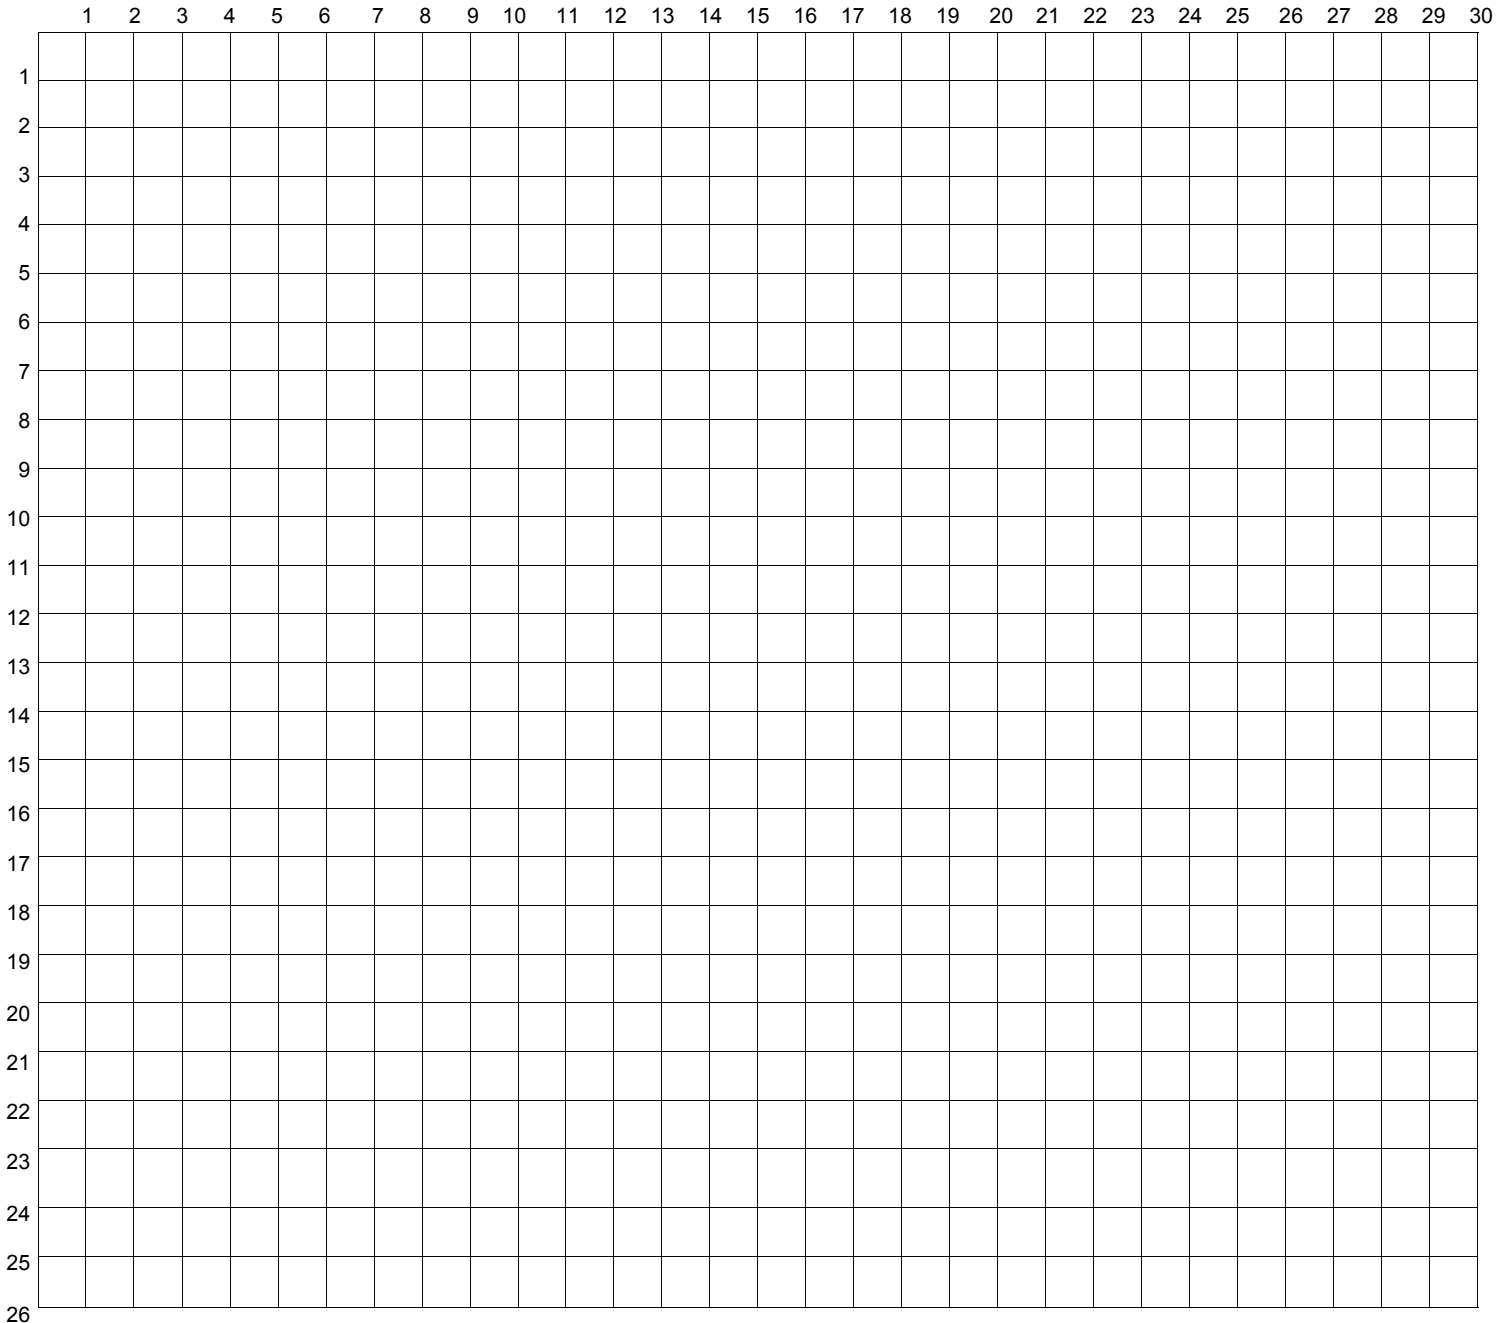

Table Size	Playing Surface	Ideal Room Sizes Using a Standard Cue
7'	39" x 78"	12'11" x 16'2"
8'	44" x 88"	13'4" x 17'0"
9'	50" x 100"	13'10" x 18'0"
10'	56" x 112"	14'2" x 18'10"
12'	70" x 140"	15'4" x 21'2"

#### PLANNING TIPS:

- 1 Square = 1 Foot
- The chart shows ideal room sizes. You can get away with less space by using a short cue for that tight spot.
- If space is limited, leave more space at the foot of the table since that's where most play occurs during the average game.
- Don't worry about a post we can help plan your room around it.
- Other things to consider - fireplaces, direct sunlight, forced air vents, fluctuating humidity levels, windows and mirrors.
- Hang your billiard lamp approximately 32 inches above the table's playing surface.
- Allow approximately 58" from the wall to the playing surface for a full length cue.
- Ask an expert at F.G. Bradley's for help!
