

# JETT 7' POWER-FLO HOCKEY

He Shoots, he scores! Our ultimate 7 foot hockey game features a super fast air-glide playing surface with arcade style "goal in the rail" design that will satisfy any expert air hockey player. This table is built to last with a durable finish on the rails and super solid commercial style cabinet. Puck "fly-out" is reduced by the deep well design and the playing surface features official rink markings. The most important feature is the thick nylon

rink walls. These will not delaminate and will assure incredible puck rebound for many years to come! The sleek side mounted electronic scorer with fun sound effects, game timer, MP3 cradle and two speakers is sure to keep everyone in the game. Includes one year limited warranty. Assembly required

## JETT 7' POWER-FLO HOCKEY

### High Output Blower with Plenum Chamber

The quiet electric fan motor runs at a blistering 2900 RPM and has an airflow output of 110 Cubic Feet per Minute. The Power-Flo system utilizes a "plenum chamber" to pressurize the air from the blower before introducing it into the under-surface cavity. This assures high-powered, even air flow across the entire playing surface for lightning fast hockey action. Motor is UL and CSA approved.

### Commercial Style Cabinet

The extra deep commercial cabinet looks hefty and will endure serious use. Rink walls are heavy nylon for durability and lively puck rebound.

### Goal-in-Rail

Goals are integrated into the rail so there are no plastic parts exposed that can break. The goal-in-rail design also allows the playing surface to be within easy reach for younger children.

### Electronic Scoring

The side mounted electronic score unit tracks goals with infrared sensors in the goal traps for a high level of accuracy. The score unit allows you to select from several game options including 20, 15, or 10 minute games, has sound effects and verbally announces each goal. Hook up an MP3 player to the two integrated speakers for music while you play.

### Sturdy Four Post Legs with Leg Levelers

The table incorporates an extremely solid four post leg system and 6" metal leg levelers with rubber guards to protect floors and allow for a level play surface in any room.

### Game Dimensions:

Weight: 179lbs.  
Length 84" (213cm)  
Width 48" (122cm)  
Height 32" (81cm)

### Included:

- 2 Traditional style 3 3/4" Pushers
- 4 Large 75mm Pucks (21gram)
- Assembly Instructions
- Warranty Registration
